TANSKYLAB

TanskyLab Commercial License Agreement

Version 1.1 - Effective 4 November 2026

In plain words. Buy once, sell forever. Print puzzles and sell them anywhere - unlimited units, 0% royalties. Sell or share the print files too - to your customers, in your shop, or free on MakerWorld - as long as the photo is yours or your customer's. Just don't sell empty templates of our cut geometry or run a competing service. One license = you, or your company up to 5 people. If this box and the text below ever seem to differ, the text below governs.

This Commercial License Agreement ("Agreement") is between **NEXT REAL Sp. z o.o.** (NEXT REAL Spółka z ograniczoną odpowiedzialnością), Gdańska 13, 50-334 Wrocław, Poland, KRS 0001242343, NIP 8982334148, REGON 544812952 ("TanskyLab", "we") and the purchaser of the TanskyLab Commercial plan ("Licensee", "you"). By purchasing or activating the Commercial plan you accept this Agreement.

1. What this license covers

Subject to this Agreement, TanskyLab grants you a **worldwide, non-exclusive, non-transferable** license, for the period described in Section 6, to:

(a) Sell physical prints. Manufacture (3D-print) puzzles, photo panels and other outputs generated with the TanskyLab generator ("Outputs") and sell the **physical printed products** in unlimited quantities - at markets, fairs, online marketplaces (e.g. Etsy), your own shop, or on commission. You keep 100% of your revenue. No unit limits, no royalties, no reporting.

(b) Sell or share the print files. Sell, give away or publish generated print files (3MF/STL) - to a customer who ordered a puzzle of their own photo, as a digital product in your shop, or as a free model on MakerWorld, Printables and similar libraries - **provided the image in the file is one you or your customer have the rights to** (Section 4). Your customer receives the file for their own use; they may print it as many times as they like.

2. What this license does NOT cover

You may **not**:

1. **Sell "blank" templates.** Do not distribute Outputs whose only value is TanskyLab's geometry - for example a puzzle cut grid, frame, box or piece set without a real photo of yours or your customer's - as templates, presets or file bundles. The image is what you sell; the cut geometry is ours.
2. **Sublicense or resell the service.** Your customers receive a product (a print, or a file for their own use) - not any right to further license the file, and not access to your TanskyLab account or generations made on their behalf as a service.
3. **Offer a competing service.** Do not use TanskyLab to operate a photo-to-puzzle generation service, API or white-label offering.
4. **Share your account.** See Section 3.

Violation of Section 2 terminates the license (Section 7).

3. Who is covered

One Commercial license covers **one natural person**, or **one company with up to 5 people** using the generator under the company's account for the company's business. Larger teams: contact us for a custom license (contact@tanskylab.com).

The license is tied to your TanskyLab account and is **not transferable** to another person or company.

4. Your content and your responsibility

- You retain all rights to photos you upload. We claim no ownership of your photos or of the Outputs generated from them.
- **You are solely responsible for having the rights to the photos you use commercially** - including copyright, trademarks, and the consent of identifiable people. Selling prints of copyrighted artwork, brand logos or celebrity images without permission is your legal risk, not ours.
- You are responsible for compliance with consumer, product-safety and tax rules that apply to products you sell (e.g. small-parts warnings for children's products in your market).

5. What TanskyLab retains

The TanskyLab software, generator, templates, cut-geometry and site content remain the property of NEXT REAL Sp. z o.o. This Agreement licenses the **Outputs you generate**; it transfers no rights in the software itself.

6. How long the license lasts

It depends on how you got the Commercial plan.

Annual plan (bought on tanskylab.com). The license runs while your plan is active: one year from purchase, and each further purchase adds another year. When the plan ends, you can no longer generate or sell under this license. Prints and files you sold while the plan was active are unaffected, and end customers keep files delivered to them. Buy the plan again to continue.

Lifetime access (MakerWorld campaign pledges and codes issued as lifetime). "Lifetime" means the lifetime of the TanskyLab service, without recurring fees. We commit to keeping the generator available on a commercially reasonable basis. This is a promise of access - not of new features, uninterrupted availability, or any service level. If the service is ever permanently discontinued:

- we will give at least **6 months' prior notice**, so you can generate and download everything you need before shutdown;
- rights to Outputs you generated **before** discontinuation survive - you may keep selling prints and files of those Outputs forever;
- files already downloaded remain on your devices and keep working offline - discontinuation does not affect them.

7. Termination

We may terminate this license only for material breach of Section 2 or 3 that remains uncured 14 days after written notice. Termination stops future use of the generator under this license; **products lawfully sold before termination are unaffected**, and end customers keep files delivered to them.

8. Miscellaneous

- Governing law: Poland; EU consumer rights unaffected. Disputes: courts competent for NEXT REAL Sp. z o.o., unless mandatory law says otherwise.
- The checkout terms and refund policy of the platform where you purchased this license apply to the transaction itself - MakerWorld (campaign pledges, processed via Stripe) or our website's merchant of record (Paddle).
- We may publish clarified versions of this Agreement. The version in force on the day of your purchase governs your license, and no later version narrows the rights granted to you here.
- If any clause is unenforceable, the remainder stands. This is the entire agreement for commercial use of Outputs; the general Terms of Service govern everything else.

Questions? contact@tanskylab.com - we answer plain-language licensing questions gladly.
